

Bringing *value* to marine waste

Environmental Diploma

2017

for

Hepsø Notservice

Material amount:

Fish farming nets:	146358 kg	Polyamide netting:	0 kg
Ropes:	4457 kg	Polyethylen netting:	1599 kg
Nets:	0 kg	Cages and tubes:	0 kg
Trawl nets:	0 kg	Various plastic fractions:	0 kg
		Various metal fractions:	0 kg

Effects of material recycling:

		
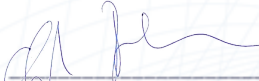

Decrease in waste equipment going to landfills, incineration or ending up at sea	Decrease in non-renewable resources	Decrease in Carbon Footprint
0,8 kg/kg	1,7 kg oil eq/kg	3,6 kgCO ₂ eq/kg

Environmental benefits:

Decrease in non-renewable resources is about 259104 kg oil eq.

Decrease in carbon footprint is about 548690 kg CO₂ eq.

The reduction of climate gasses equals 4943 plane passenger going from Oslo to London
